Susan G. Komen 3-Day for the Cure – by Megan E. Williams

This year, I'll be participating in a very special event called the Susan G. Komen 3-Day for the Cure®.

I'll walk 60 miles over the course of three days with thousands of other women and men. Net proceeds from the 3-Day for the Cure are invested in community-based breast health programs and breast cancer research. The research funded focuses on decreasing breast cancer incidence and mortality in the next decade.

I've agreed to raise at least \$2,300 in donations. I've set my personal goal at \$2,300. So I need your help. Would you please consider making a donation? Keep in mind how far I'm walking - and how hard I'll have to train. You can donate online at www.The3Day.org : just click on *Donate* and search for my personal fundraising page. You can also call 800-996-3DAY to donate over the phone please be sure to use my name.

I have always watched from the sidelines as these women and men walk every year. This year I thought it would be a great idea to join these selfless people in their fight to find cures. I have had family and friends who have fought the battle against breast cancer some have won others have not been so lucky.

I remember when I was in 7th grade a friend of mine was diagnosed with breast cancer. Yes, she was in seventh grade as well, scary. She won that fight. Breast cancer does not discriminate on any level. We need to do everything we can to rid the world of this disease!

Without a cure, one person will die of breast cancer every 13 minutes in the United States. That's why I'm walking so far. To do something bold about breast cancer. I hope that you'll share this incredible adventure with me - by supporting me in my fundraising efforts.

Thank you in advance for your generosity!

Sincerely,
Megan E. Williams

P.S. Ask your employer if they will double your donation through a matching gift program!

The event starts July 29

Our spring was very wet and rainy but as I write this the last few days have been absolute steamers! I have to keep reminding myself not to complain because it could be raining. We've got all the basins cut at least twice so far and we will keep up with them for the remainder of the year. As far as the modifications for the basins, that's still on hold, nothing new to report. Just as soon as the county gives us some communication on the process we will proceed.

My wife Diana and I were asked to be judges for the July 2nd Children's Bicycle Parade. We're very excited to help; the kids are always so cute, if you haven't seen this before you're missing a treat. Everyone lines up in driveways as the kids come riding

their bicycles by waving at everyone. A real hoot, ya just have to take in. It is followed by an ice cream social back at the pavilion. Parade line up is at the playground pavilion at 9:45 AM. RSVP Jessica at cuffia@sbcglobal.net.

Also coming up is the 2nd Annual Adult Party on July 23rd at the Beach Pavilion. It begins at 7 PM and goes until midnight. Sign in begins at 6 PM, bring proof of residency or beach pass and friends as you choose. Flyers with more information will be passed out shortly. Last year was our first year and we didn't know what to expect. We hired a band, passed the word and hoped for the best but truly didn't know if we would have 10 people or a hundred. As it turned out we had around 130 and it was a smash hit. We hope you make it a point to attend the party this year, we are having a DJ and have a few fun games to play for fun. Note to you golfers, be ready for the "Bluff Shot Challenge".

We began May with a cash balance of \$118,168.49 in our checking account and ended it with \$111,945.60. Our largest expenses for the month were landscaping (\$3,087.63) and our management company (\$1,333.33). We paid to get both pavilions exterminated; this is an annual expense we take on to keep the bees and hornets to a minimum. This is one of John Guinian's annual decrees, he won't sleep until we put it in the budget; gotta make John happy ya know.

We have completed the original two year contract with First Realty Management Company and they proposed a two extension to that contract. John, Dave and I are extremely pleased with their level of service and feel we would like to lock them into a longer contract to keep them here through future boards. The proposed extension to the contract has increases in each year of the contract but by the time it concludes in 2016 we will still be paying significantly less in annual service fees than what we were paying prior to bringing them onboard in 2009. Our property manager is Bob Guarino and he is very much in tune with the neighborhood. His Right Hand "Ma'am" is Ginny Nichols back at the office and the two of them make an awesome team, I couldn't be happier, hope you are as well.

On Saturday, August 6th there will be the 1st Annual 5k Run/1Mile Family Walk. The run will begin at 8:30 AM with race-day registration beginning at 7:30 AM. The Family Walk begins at 8:45 AM. This

wonderful event is being spear headed by Dawn Linch who lives at 1615 Clipper Cove. All proceeds will benefit hereditary cancer (FORCE) and a family in our development that has been affected by cancer. Please contact Dawn at dawn.jl@hotmail.com, look on the Lake Erie Shores Facebook Page or on our website.

If you have any questions I can answer for you, please feel free to send me an email at avcmcchi@sbcglobal.net, call me (350-1640) or simply knock on my door at 926 Pebble Beach Cove. Hope to see you around the neighborhood in the coming months.

When you worry about the problems of tomorrow, you are creating unhappiness for yourself today.

Reference Points – by Jim Sorenson

Different people have different reference points for various things in life. Reference points can be for money, what is aesthetically pleasing, distance, etc.

Some people think that \$100k is an acceptable price for a car, while others think that \$100k would be an expensive home. Our numerous personal reference points can change throughout life as well.

I had an opportunity to attend a track day in June at Nelson Ledges, a road course that is about 50 minutes from our neighborhood. I have not road raced motorcycles in over a decade, so I expected my personal reference points of “fast” and “traction limits” to have changed drastically, and I was correct, they had changed.

I did not expect to be as “fast” as I was in 1999 when I used to win races – and I was not. What had not changed though was the fact that riding a motorcycle on a track creates an ear-to-ear grin on me. I rode within my limits, did not do anything dumb and had a blast.

I was one of the “younger” participants, and I am on the wrong side of 40, so that should tell you something about the ages of that particular group. People were riding “new” bikes, “old” bikes, sportbikes, sport touring bikes, other bikes, and the engine displacements were both “big” and “small”.

I did not get in as many laps as I wanted and I am eager to do it again. My motorcycle road racing days are over, but I still have the opportunity to participate in track days and there are about seven more track day opportunities at Nelson Ledges remaining in 2011.
